MODERN POLYMER PRODUCTS

Modern Polymer Products is a leading provider of high performance mineral and additive concentrates and compounding services for the global plastics industry.

Founded in 2014, Modern Polymer Products, Inc. is part of The Modern Group, a strong family of leading industrial equipment companies serving a broad variety of industries since 1963. All Modern companies are united by a steadfast set of core values – to build and deliver products of the highest quality, relentlessly striving to provide outstanding equipment and project support, and to come through for our customers no matter what.

Our world class 300,000+ sq. ft. manufacturing and logistics facility with inter-modal access is centrally located near Houston, Texas, in the heart of the U.S. petrochemical industry.

Compounding Services

We have over 50 proven proprietary formulations and can create custom products and services to fit what the customer needs. Some of these include:

- Anti-Stat Concentrates
- Slip Concentrates
- Process Aid Concentrates
- UV Concentrates
- Anti-Block / Slip Anti-Block
- TiO₂ / White

Tolling Services

We provide tolling services for our customers' proprietary formulations.

Our in-house laboratory capabilities and ISO 9001 quality management system ensure our products meet the highest quality standards.

WHY PCR?

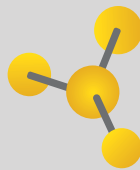

- Do you use Post-Consumer Recycling (PCR) in your formulation?
- Do you want to help reduce green house gas emissions?
- Are you interested in reducing your carbon footprint?

We have experience in compounding PCR formulations - we can help you with your own formulations or create a cost effective formulation that meets your specific needs.

BENEFITS OF USING PCR IN YOUR PRODUCT

- Reduce virgin material cost
- Reduce green house gas emissions
- Help reduce plastic in landfills
